Soda

Water

Gatorade

Tea

Questions

How healthy
does the food
need to be?

How do we
ensure that
every student
has a working
fridge?

Should data just be
collected once, or
should the student
communicate their
preferences every
day?

Should
student's meal
swipes be
deducted?

Should we offer
medicine to those
who have
symptoms? (Tylenol,
cough medicine,
etc)
